(All Regional Centres ECHS)

SINGLE USE DIALYZER

1. Haemodialysis is a listed procedure in CGHS rate list with different rates for seronegative and seropositive cases. It has been observed that many empanelled hospitals are charging the cost of single use dialyser over and above the dialysis charges and many ECHS Polyclinics are issuing referrals for haemodialysis mentioning single use dialyser, which is incorrect.
2. A necessary clarification from CGHS has also been obtained in this regard and the CGHS authorities have confirmed that cost of single use dialyser is included in the cost of seropositive dialysis charges.
3. All regional centres are instructed to inform all the Polyclinics under their AOR not to mention single use dialyser in their referrals for seropositive cases.
