

## **MODIFICATION OF AMBULANCE AT ECHS POLYCLINICS**

1. During the visit of MD to various station, inputs have been received to make Ambulance of ECHS Polyclinics more functional and equipped, to render critical care during move.
2. It has been decided that following modifications/addition be incorporated in Polyclinic Ambulance with immediate effect :-
  - (a) Marking of the vehicle with the word AMBULANCE in front and AMBULANCE rear, in read.
  - (b) Affixing a blue flashinght and siren to work as an audio –visual alarm.
  - (c) Incorporation of hook(s) ?clamp(s) to hold and intravenous drip, inside the patient cabin.
  - (d) Designing of bracket (s)/slot to anchor a oxygen cylinder, near the stretcher base.
  - (e) Make a Critical Care Box/Bag with basic life saving drug and equipments which can be carried conveniently in the ambulance, in times of need. The contents and design of the same may be worked out by the MOIC Polyclinic, and approved by the Joint Director Medical at the Regional centre.
3. The above requirements are likely be met with existing resources available at the Polyclinic, however petty expenditure may be made from appropriate code head, within the powers of OIC Polyclinic/Stn Cdr.
4. Appropriate directions on the subject may please be disseminated to Polyclinics under your AOR.
