

WHAT IS PARTICIPATIVE POLICY MAKING

Participative Policy Making (PPM) - ECHS is providing health care to 52 lakhs ECHS beneficiaries through 28 Regional Centres and 426 ECHS Polyclinics. Policies prepared at ECHS focus on concerns of our veterans & their dependents. Towards this end, ECHS commences Participative Policy Making (PPM) wherein all stake holders will be given an opportunity to express their views so that there is an institutional mechanism to factor these views prior to policy rollout. Draft Policy Documents will be uploaded on ECHS website under Participative Policy Making and will be available for comments for next ten days. The email id for response will be indicated with each draft policy document.
